

METHODIST LADIES COLLEGE

We recently had the privilege of furnishing MLC's library.

The Evoke seating range adds colour and excitement to the area.

Opac bay end panels allow for easy access to laptops.

The Kink tables with the colour variation add interest to an otherwise standard computer area.

The orange curved shelving unit is a whimsical addition to the librarian's admin storage.

White slatted gondola displays the children's books beautifully and the unit itself does not distract from the books on display.
